Independent Investigations Division Statement Regarding Fatal Officer-Involved Shooting Investigation in Frederick

BALTIMORE, MD (March 28, 2023) – The Independent Investigations Division (IID) of the Office of the Attorney General continues to investigate the fatal officer-involved shooting death of Joseph Sherrill, which occurred on March 4 involving the Frederick Police Department.

On March 22, the Frederick County State’s Attorney’s Office announced that they were declining to bring charges against the involved officers in the shooting.

The IID will continue to complete a thorough, independent investigation, as the Maryland legislature has charged us to do. When our investigation is complete, we will present it to the Frederick County State’s Attorney’s Office and, when appropriate, release it to the public.
