

**Public Information Act Representatives**  
(General Provisions Article § 4-503(b))

Governmental units are grouped together by jurisdiction, beginning with State agencies, then county agencies, and then municipal agencies. Note that a body that qualifies as a State entity might nevertheless be grouped with county agencies when its jurisdictional reach is limited to a particular county. Also note that this list will be updated periodically, with each update bearing its revision date in the lower left-hand corner of the page.
