

**Surviving Abuse, Exploitation and Neglect.  
Data & Statistics Subcommittee.  
7/2/2020  
Meeting Chat**

You

11:23 AM

SB407 sponsored by Senator Ben Kramer - Office of the Attorney General Senior and Vulnerable Audit Asset Recovery Unit

You

11:29 AM

SB 833/HB 1527 Adult Protective Services - Vulnerable Registry - Investigations and Records of Abuse and Neglect and Workgroup Study

You

11:35 AM

FYI - The one on the criminal component was HB1282

You

11:37 AM

HB1282 would be available for all the public. SB833 is confidential and only for the use of APS/DSS (I think.)

You

11:38 AM

explain OHCQ PLS

Stacey Darin -MDH-

11:51 AM

There is also a board of nursing home administrators that might be a good resource to send out communications to the nursing homes

You

12:02 PM

is there any use of telehealth in prison?

You

12:05 PM

HB1208 provides mental health and chronic condition management services - coverage pilot program which passed and not vetoed - should be extended to prisons

Laura Opont

12:06 PM

sorry my computer died

You

12:15 PM

Cat - can you tell us or get a report on whether the immigrant community is being counted in the Census or is it being worsened because of COVID-19?

You

12:19 PM

Munib - along with restrictive housing reporting. Do we need injury reporting?

Munib Lohrasbi

12:21 PM

injury reporting would be helpful. dpscs currently has to report the number of suicides annually but not suicide attempts/ideations, instances of self-harm, or use of force by staff

I'll include it in the letter

You

12:23 PM

SB407 was unanimous in both chambers. So it is veto proof

Dorinda Adams -DHS- SSC

12:23 PM

Thanks for the information on SB 407

You

12:30 PM

Thanks Munib. I think we need it and do you feel there has been accurate reporting as to inmates who were tested, diagnosed and how many were SMI or DD?

Also Munib has DRM been able to get back into any facilities after COVID -19

Cathryn Paul

12:33 PM

Thank you so much Laura!!!

You

12:35 PM

Oh! and Laura - please make a note that we need info on Unemployment Claims and whether individuals have been neglected or exploited

Munib Lohrasbi

12:37 PM

most people aren't evaluated after initial intake even if they're incarcerated for years so I'm not confident that they're capturing everyone
